**A Maxi Mover for every business,  
PRO, PRO+ GT OR E-Loader?  
The choice is yours...**

We understand that one size doesn't fit all that's why we have designed and developed a comprehensive range of Maxi Mover FreightLoader conversions which deliver unrivalled and unmatched performance, maximising payloads and cargo volumes up to 29m<sup>3</sup>, the clear answer for businesses which demand maximum return on investment.

**We don't do standard, average, mediocre or okay -  
those words are not in our vocabulary.  
We leave that to our competitors.**

We only manufacture high performance, professional conversions for high performance businesses who expect high performance results.

Optimise your fleet efficiency with FreightLoader, the UK's number 1 high performance low loader delivery van.

**Demand the best, choose Maxi Mover *FREIGHTLOADER*;  
the preferred choice of many of the UK's  
leading transport, distribution and  
logistics companies for  
over a decade.**

# MaxiMover®

## FREIGHT LOADER® BUILT BY PROFESSIONALS. FOR PROFESSIONALS.

Quality matters, Maxi Mover conversions are fit for purpose and built to last.

At our state of the art manufacturing facility our entire team are committed to manufacturing excellence, our internal quality systems have been rigorously developed by industry professionals and are supported by in house quality management teams.

**Deliver loads more for less.**

## DRIVING EFFICIENCY EXCEEDING EXPECTATIONS.

At Maxi Mover we are always pushing the boundaries of quality and innovation, challenging the norm, to be the first and to build the best, developing and delivering the most efficient, cost effective commercial vehicle conversions for our customers.

Right first time, complete traceability, these are all the promises we make to our customers and premium brand base.

## FREIGHT LOADER® BODY CONVERSION SIZE OPTIONS

# #1

### > PROFESSIONAL CONVERSION DIMENSIONS

## RENAULT MASTER CHASSIS CAB

Our class leading freight loader conversions are built on the stylish Renault Master FWD low floor platform chassis cab.

The Master offers a low loading height of just 550mm for easy and quick loading. Powered by either the latest euro 6 ULEZ compliant 145PS diesel engine option or the latest 57kw 100% electric, zero emission chassis cab.

# FREIGHTLOADER® THE BIG DIFFERENCE. MANUFACTURED WITH *HEXLITE*.

## MAXIMISE PAYLOAD, OPTIMISE EFFICIENCY

We only manufacture high performance low loader delivery van conversions using high performance materials together with premium components.

The Maxi Mover design and production teams have focussed on designing and manufacturing the most efficient low floor delivery vans, at an affordable price which maximise cargo payloads, volumes and ultimately maximise your return on investment. In today's marketplace, achieving maximum efficiency within your vehicle fleet is critical to business success.

**Time is money, every kilo matters, every penny counts.**  
*FREIGHTLOADER®* delivers everytime.

PROFIT**

# HEXLITE®

## ADVANCED COMPOSITE BREAKTHROUGH TECHNOLOGY

- ✓ Ultra lightweight
- ✓ Increased payload
- ✓ High strength
- ✓ Energy absorbent
- ✓ 100% recyclable
- ✓ Resistant to water, acids and bases

*HEXLITE®* has been designed and developed by industry leading experts to address and overcome the daily challenges faced by both fleet operators and owner drivers operating 3.5t LCV's and HGV's. It is the lightest and strongest, 100% recyclable composite material.

*HEXLITE®* is an innovative solution widely used in military and aerospace industries, the advanced thermoplastic polypropylene material structure significantly increases cargo payloads, increases structural body strength, reduces high carbon emissions and operating costs. It is 50% lighter compared to standard traditional conversion materials.

**Not all conversions are equal.** *FREIGHTLOADER®* PRO, GT and E-Loader conversions are manufactured without compromise using *HEXLITE®*.

FREIGHTLOADER®

# PRO MODEL

FREIGHTLOADER<sup>PRO</sup>

## NOT ALL LOW LOADERS ARE EQUAL.

From the ground upwards, the PRO is different, built to overcome the obstacles associated with standard traditional build techniques, it offers superior performance and payloads.
