We are the manufacturer.

Our new class leading, lightweight **QUBELO** Professional range is based on the Fiat Ducato FWD platform chassis cab with a low loading height of just 500mm to facilitate easy and quick loading and unloading.

Efficiency is paramount to your business, we understand that one size doesn't fit all, that's why we have designed and developed 6 x body size variants, so you get the optimum sized Maxi Mover for your business.

**Fit for purpose, built to last,
deliver loads more for less.**

DELIVERING
MORE FOR LESS.

FIAT

WE ARE THE MANUFACTURER

Quality matters, Maxi Mover conversions are built to last.

At our state of the art manufacturing facility our entire team are committed to manufacturing excellence, our internal quality systems have been rigorously developed by industry professionals and are supported by in house quality management teams.

Deliver loads more for less.

DRIVING EFFICIENCY EXCEEDING EXPECTATIONS.

At Maxi Mover we are always pushing the boundaries of quality and innovation, challenging the norm, to be the first and to build the best, developing and delivering the most efficient, cost effective commercial vehicle conversions for our customers.

Right first time, complete traceability, these are all the promises we make to our customers and premium brand base.

CELEBRATING
25 YEARS
OF COMMERCIAL VEHICLE EXCELLENCE

FIAT DUCATO

CHASSIS CAB

Our new class leading, lightweight *QUBELO* range is based on the Fiat Ducato.

This FWD platform chassis cab has a low loading height of just 500mm to facilitate easy and quick loading and unloading.

The best for your business.

HEXLITE®

ADVANCED COMPOSITE BREAKTHROUGH TECHNOLOGY

- ✓ Ultra lightweight
- ✓ Increased payload
- ✓ High strength
- ✓ Energy absorbent
- ✓ 100% recyclable
- ✓ Resistant to water, acids and bases

HEXLITE® has been designed and developed by industry leading experts to address and overcome the daily challenges faced by both fleet operators and owner drivers operating 3.5t LCV's and HGV's. It is the lightest and strongest, 100% recyclable composite material.

HEXLITE® is an innovative solution widely used in military and aerospace industries, the advanced thermoplastic polypropylene material structure significantly increases cargo payloads, increases structural body strength, reduces high carbon emissions and operating costs. It is 50% lighter compared to standard traditional conversion materials.

Not all conversions are equal. *QUBELO* conversions are manufactured without compromise using *HEXLITE®*.

QUBELO[®] PRO MODEL

PROFESSIONAL NOT STANDARD.

Not all low loader vans are equal. The PRO is different, built to overcome the obstacles associated with standard and traditional build materials, it offers superior payload and performance to standard conversions.

PROFESSIONAL

Our most popular, *QUBELO*[®] PRO model enables you to outsmart your competitors by maximising your daily deliveries. Manufactured using the latest advanced *HEXLITE*[®] 100% recyclable, ultra lightweight composite material, it offers unmatched payloads, increased by over 250kg compared to standard models.

Designed and built for the demanding business owner and fleet operator.
